

ABSTRACT

It is an object of the present invention to provide a
5 laminated glass and an interlayer film for laminated
glasses, which have the high performance for mitigating the
impact given externally and, particularly in the case of
using it as glass for vehicles, have the high performance
for mitigating the impact when head comes into collision
10 with the glass due to the occurrence of a personal accident.

The present invention is directed to a laminated
glass, wherein at least an interlayer film for laminated
glasses and a glass sheet are laminated and unified, Head
Injury Criteria (HIC) values, measured according to
15 regulations of European Enhanced Vehicle-safety Committee;
EEVC/WG 17, being 1,000 or lower.
